SION / SPELL-
INGS**

JANUARY — APRIL 2017

The Penultimate Term!

ENGLISH

READING - There is no doubt that readers find writing easier as they have a greater bank of ideas from the stories they have read. Reading also aids spelling as you see the words more often and are therefore more likely to spot mistakes in your own spelling. It also enriches your vocabulary as you learn new words and phrases, which paint vivid pictures in your mind.

SPELLING - The children will be taught spellings

GEOGRAPHY

Our topics include a local geographical study and making sense of the wider world and the impact of tourism, housing and weather conditions.

through a new systematic spelling programme Read Write Inc. Spelling. This will enable them to spell new words correctly and give them plenty of practice in spelling these new words, including exception words and homophones. The children will bring home the spellings that they have been learning in a spelling log book and they will be encouraged to share these at home with you.

MATHEMATICS - New topics will include translations

LENT

SCIENCE

Science for this term focuses on physical processes which includes: forces, friction, electricity, sound, light, the Earth and beyond and magnets. There is plenty of scope for experiments which makes learning so much more enjoyable.

and rotations, fractions, ratio and proportion. However in essence we will be revising topics but doing so around 'using and applying' techniques. We will look at word problems and how questions can involve knowledge and application techniques covering more than one topic. More specific mathematics homework will be set after the half term holiday.

TIMES TABLES

Please learn them they are **ESSENTIAL!!!!!!!**

SPECIAL DATES

Shrove Tuesday - 28th February

Ash Wednesday - 1st March

Parents Evenings - 28th & 30th March

SATs week - 8th - 12th May
