Year Six Spring

JANUARY — MARCH 2019

The Penultimate Term!

ENGLISH

READING - There is no doubt that readers find writing easier as they have a greater bank of ideas from the stories they have read. Reading also aids spelling as you see the words more often and are therefore more likely to spot mistakes in your own spelling. It also enriches your vocabulary as you learn new words and phrases, which paint vivid pictures in your mind.

SPELLING - The children will be taught spellings

Science

We will be learning about famous scientists and their contributions to the world.

Hothersall Lodge Climbing

For 6 weeks we will be visiting the climbing wall at Hothersall!
Exciting!

through a new systematic spelling programme Read Write Inc. Spelling. This will enable them to spell new words correctly and give them plenty of practice in spelling these new words, including exception words and homophones. The children will bring home the spellings that they have been learning in a spelling log book and they will be encouraged to share these at home with you.

MATHEMATICS - We will continue to follow our

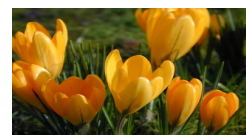

inspire maths approach we will be learning about nets and fractions. Alongside this learning we will brush up on our arithmetic skills. However in essence we will be revising topics but doing so around 'using and applying' techniques. We will look at word problems and how questions can involve knowledge and application techniques covering more than one topic. More specific mathematics homework will be set and this will be directly linked to class learning.

TIMES TABLES - Please learn them they are ESSENTIAL!!!!!!!

LENT

Year Six SAT tests

In this term we will be preparing for these tests. Part of our preparation will be revision and further practice, we will also be practicing test technique!
