

The T-Rex Rocks!

There's a dinosaur party down by the lake
a rock 'n' rollin' party and it's startin' to shake.
A tremble in the ground like a big earthquake,
Just listen to the noise that it's starting to make

A rumble in the jungle, a Pterodactyl tumble.
But everything stops...when the T-Rex rocks!

With a clickety-click of those terrible claws,
and a growlin' and a howlin' from those fang-filled jaws,
and everybody knows when the T-Rex roars,
there'll be dancing' and a twistin' from the dinosaurs

A rumble in the jungle, a Pterodactyl tumble.
But everything stops...when the T-Rex rocks!

When the T-Rex rocks, we stop and stare.
When the T-Rex rocks, you'd better beware.
When the T-Rex rocks, throw your hands in the air,
he's movin' and a groovin'
Oh yeah!

There's a pounding on the ground from the beat so strong,
and his ten-ton tail is thumpin' along.
We're rollin' all the stones to a brand new song,
and Velociraptors all get to clap along.

A rumble in the jungle, a Pterodactyl tumble.
But everything stops...when the T-Rex rocks!

When the T-Rex rocks, we stop and stare.
When the T-Rex rocks, you'd better beware.
When the T-Rex rocks, throw your hands in the air,
he's movin' and a groovin'
Oh yeah!

Ah!
Ah!
Ah!
Ah!
Roar!!!!!!

The Stegosaurus stomps to the rock 'n' roll sound,
the raptors all are rappin' as they strut up and down.
The Brontosaurus' break dancin', spinning around.
It's Prehistoric rockin', and it's shakin' the ground.

A rumble in the jungle, a Pterodactyl tumble.
But everything stops...when the T-Rex rocks! Yeah!
