

## Tonight's the Night

We're gonna have a party, tonight's the night,  
we're putting on a show, tonight's the night,  
and there's no-one here to stop us, tonight's the night,  
so if you're ready, hold on tight and let's go, go go!

When I sing the world starts shining, moonlight fills the sky.  
The stars look like they're smiling, I can feel that I can fly.  
When I sing I show my feelings, see just who I am.  
I feel I can do anything, when I sing I know I can.

When I sing I show my feelings.  
See just who I am  
I feel I can do anything,  
when I sing I know I can.

We're gonna have a party, tonight's the night  
we're putting on a show, tonight's the night  
and there's no-one here to stop us, tonight's the night,  
so if you're ready, hold on tight and let's go, go go!

When I sing my life's amazing, ev'rything feels right.  
I open up to ev'ryone I feel my soul ignite.  
It's the way I want to live, it's the time that I am me,  
it's ev'rything I'll ever need, it's the time I'm feeling free.

We're gonna have a party, tonight's the night  
we're putting on a show, tonight's the night  
and there's no-one here to stop us, tonight's the night,  
so if you're ready, hold on tight and let's go, go go!

It's the way I want to live,  
It's the time that I am me  
It's everything I'll ever need  
It's the time I'm feeling free

When I sing it's a different world, I feel our world is new,  
the world will stop its fighting, 'cos I'm singing just for you.  
I'm singing just for you.  
I'm singing just for you.

We're gonna have a party, tonight's the night,  
we're putting on a show, tonight's the night,  
and there's no-one here to stop us, tonight's the night,  
so if you're ready, hold on tight and let's go, go go!

We're gonna have a party, tonight's the night,  
we're putting on a show, tonight's the night,  
and there's no-one here to stop us, tonight's the night,  
so if you're ready, hold on tight and let's go, go go!
